

## Owner's Story

We bought this lot prior to Olympics and built the first home on this lot with our 3 friends and partners so we could all enjoy Squaw Valley together. We enjoyed many family and friend gatherings during all four seasons. The short walk down to the Bear Pen bar was much appreciated. Our children walked to and from ski team. We could see them across the parking lot heading for the house. We loved looking out over the Olympic ice rink, the Blythe Arena, where our kids enjoyed skating after skiing. The hillside provided a great sledding venue and it was hard to get the kids in for dinner. We saw many changes in Squaw and each one seemed to enhance this house. We built a big house to enjoy extended family. Thanksgiving was always 25 to 30 people. It was our family holiday and they all came!! We loved being here but it is time to move on. As our children moved into their adult years our needs changed. I hope you love this place as much as I still do. I moved up the hill to a smaller house next to my daughter and family.
